Picture Story - (Történetmesélés)

Before the Speaking test, the candidate receives a picture story with an opening line. The task is to tell the story.

After receiving the exam tasksheet with the pictures, the candidate has ten minutes to prepare a story. The candidate is encouraged to make keyword notes in this preparation stage but should not try to write down the whole story word for word. They will not be allowed to read aloud what they have written.

In this part of the test, you are going to tell the stories you prepared earlier. Lara, here are the pictures and your notes. Now, I'd like you to tell your story. You may look at your notes but please do not read aloud from them. Tell the story to everybody here. Remember you only have **two minutes**. You have thirty seconds to look through the pictures and your notes. Please start now.

Candidate:

Brandon was called a geek by his friends, by me too, since he was always glued to his two screens. Imagine, two, not even one...

First, spend 10 minutes preparing to tell the story about Brandon.

Now - using your notes if necessary, without reading aloud from them - tell the story you have come up with. (Record your story with your mobile phone and then listen to the recording to check what you have done well and what you haven't.)

PICTURE STORY

The story starts like this:

Brandon the Geek was always glued to his two screens at home.
